

00:26:23 Steven Detrick: Does this include school boards

00:31:39 Christopher Ruhaak: Does that have to be a quorum or can it just be one or two members of said board?

00:36:22 David Blocker: If I send the same email to all board members individually versus reply all does this constitute a meeting?

00:37:58 Danielle Pettit-Majewski: Question - I do this repeatedly. If I ask for them to respond to me, my attorney told me it was a de facto meeting - is that true? Even if I Bcc?

00:40:57 Ann Baschke: Who is responsible for gathering the certificates from members who attend an open meeting training? Example would be the BOS appoints or creates a pioneer cemetery. The pioneer cemetery board appoints members.

00:42:38 Steven Detrick: ISAC says we can debate and vote on an item not on the agenda

00:45:15 Shirley Vermace: Is that 24 hours counted only on M-F, not weekends?

00:45:32 Travis Hemesath: If you want something on the agenda does the auditor have the authority or the chair have the authority to reject you and not add your topic.

00:47:51 Peggy Rolph: So if no action was taken does it need to be in the minutes?

00:48:51 Barbara Rohwer: Is the electronic meeting only for the board members?

00:49:38 Peggy Rolph: What if it is just discussion

00:49:43 Denise Beyer: Regarding township meetings - They are under public meeting laws - are they required to offer an electronic option?

00:50:17 Steven Detrick: How do you make corrections to the minutes other than scrivener errors. Do minutes get moved to the next meeting for review if corrections are needed?

00:51:01 Denise Beyer: Oh no!!! That is going to be.... difficult. Many/most don't use computers.

00:51:41 Michael Clasen: Will you be able to send out the questions and answers that were presented via the chat function during this meeting?

00:52:16 Denise Beyer: At end of meeting, can we open up this question to those present: How do your townships do electronic meetings? Do they all come to the courthouse and you help them?

00:52:39 Doug Reed: Electronic meetings; as the code states electronic available for its members, does that link have to be publically available for use since the public is free to attend in person and code doesn't specifically state?

01:04:29 Peggy Schluttenhofer: In a closed session with the Board of Supervisors, who is included in the "members" of county government?

01:14:02 Don Phillips: We are looking to go with a time clock system and employees to clock in or off on their phone. Would their phone then be subject to Open Records?

01:15:53 Lacey Daum: If you state that there is a zoom option, please contact the office to obtain link and they do not is that providing reasonable access?

01:16:10 Travis Hemesath: Would you consider Law Enforcement body camera video a part of police reports? and not allowed to be released? or can be released at the discretion of the Sheriff or Chief.

01:24:19 Steven Detrick: What is the recourse if a mobile provider refuses to provide a call log for your personal phone

01:29:08 David Blocker: Your ppt would be a great resource for future reference. Would it be possible to receive a copy of it (PDF, etc.)?

01:41:02 Lacey Daum: Did I hear this correctly that if they are a current board member and are reappointed they must complete course?

01:41:30 Amy Kelly: I have two Board of Health Members who are attending this training with me today: Rhonda Jasper, Janny Budzine - Buchanan County Public Health

01:43:31 Denise Beyer: I have townships where none of the members (Clerk or Trustees) have a computer or they have a computer but no knowledge how to set up an electronic meeting - either Zoom or even a conference call option. Who can we refer them to for training - or is that my responsibility to train them as the County Auditor?

01:43:55 Travis Hemesath: Just Clarifying my first question. In setting board agenda if a none board member such as a individual from the public or say a county attorney would like a topic put on the board agenda can it be refused or does it have to be put on the board agenda.

01:45:15 Travis Hemesath: I'll just email you on that topic

01:46:27 Shawn Kelly: Regarding 21.8, electronic meetings - for clarification, are conference board meetings required to have an electronic option available? And is the option for board members only or for members AND the public to attend?

01:46:40 Denise Beyer: 👍 - I have some "unique" clerks but we'll do our best to make sure they comply.

01:47:45 Shirley Vermace: And we should all lean into transparency anyway!

01:49:37 Lacey Daum: If you state that there is a zoom option, please contact the office to obtain link and they do not is that providing reasonable access?
